

## 2022 August *Guess that Plant*

*Cypripedium acaule* Ait., Pink Lady's Slipper

Augusts' *Guess that Plant* was an easy identification for any outdoor enthusiast trekking in New Jersey uplands. Pink Lady's Slipper is found state-wide in sandy, acidic, upland forests. The plant is a member of the orchid family, Orchidaceae. It is one of four lady's slipper found in New Jersey. It is the only pink flower member. It flowers in late spring and early summer.
